

Heroes like to help others—

If you are age 55 or older

And you want to volunteer some of your time to community service, (helping health care, homeland security, schools, faith-based groups) and many other non-profit organizations achieve their goal.

You might be interested in becoming part of the Retired & Senior Volunteer Program. Call us at 524-2786.

We recognize that your lifetime skills, talents, and experience are valuable and can be helpful towards a community need.

What you know can be shared. You may want to learn something new and develop new skills while assisting with a project.

Our list of volunteer opportunities is always growing. We will work with YOUR interest, YOUR schedule, YOUR desire to be close to home or willingness to spend a few hours in an office or in a garden, with museum staff, or on the road delivering mobile meals or library books to the homebound, or perhaps focusing on homeland and community security issues. RSVP helps you with the "matching" process.

You can specify whether you want to share your volunteer time with other adults, children or teens; working one-on-one with someone who needs a mentor or a special pal, or contributing your unique skills to a group focused on a special project, task, or community event.
